Description: The purpose of the Targeted SNAP Outreach II Request for Proposals is to secure the services of eligible organizations to develop and implement innovative ways to connect potentially eligible individuals with SNAP benefits.

This RFP also seeks to continue outreach in geographic areas of the State that have not previously been served/or are underserved by SNAP outreach activities. The goals of SNAP outreach are to help people make an informed decision about whether to apply for the program, and ultimately to increase participation by eligible individuals and families. Findings show that, in addition to the general low-income audience, there are distinct groups that are significantly under-represented in accessing SNAP benefits. This RFP is focused particularly on reaching the newly unemployed, working poor, elderly, legal immigrants, and those who do not apply for the program because they believe that they are likely to receive only a small monthly allotment.
