The purpose of this GIS message is to inform NYC HRA Centers of new Group Home and Congregate Care budgeting methodologies which will be effective October 1, 2008.

- The new group home budgeting process establishes methods for calculating the Food Stamp (FS) countable income and the shelter costs for group home residents who receive Temporary Assistance (TA) payments and those who receive Supplemental Security Income (SSI) benefits.
- Ongoing Food Stamp cases with a FROM Date of 10/01/08 or later have been automatically rebudgeted in accordance with the budgeting methodology described below. No additional action is required for these cases. See ABEL Transmittal 08-3 (Revised) for a more detailed description of System information and instructions.)
- As described in ABEL Transmittal PA/FS 8.3 Revised & NPA/FS 8.3 Revised, in almost all situations, as long as the correct Shelter Type Code and gross income amounts are entered into the ABEL budget, the system automatically will calculate the shelter cost amount and the FS countable income for the budget calculations described below.
- The new budgeting routines apply to New York City Food Stamp cases having Shelter Type Codes 15, 16, 17, 27, 28, 29, 31, 32, 42 and 43.
