OTDA Employment & Training Initiatives

Career Pathways II - Is a sector based initiative that supports partnerships with employers, education and training, and support service providers to focus on the workforce needs of key industries in the regional labor market. Career Pathways helps public assistance recipients and other low-income individuals, including young adults between the ages of 16-24, with ongoing skills acquisition to forge a career path that includes good wages with advancement opportunities. Features of the program include coordinated case management, provision of child care and transportation, and post-employment support for job retention and advancement.

Empire State Poverty Reduction Initiative (ESPRI) - Is a program that is bringing together local stakeholders to develop and implement coordinated solutions to increase social mobility in 16 selected communities across New York State. ESPRI is modeled on the successful Rochester-Monroe Anti-Poverty Initiative, part of a broad coalition of state and local government, business, and nonprofit representatives working together to coordinate efforts to address extreme poverty. ESPRI also strongly emphasizes participation from individuals who are affected by poverty so that they have a voice in improving their communities.

HIV/AIDS Employment Initiative – This initiative secures the services of eligible organizations that can assist OTDA and the AIDS Institute of the New York State Department of Health (DOH) in addressing the employment and training needs of persons living with HIV.

Wage Subsidy Program (WSP) - This initiative provides job opportunities for public assistance recipients and other low-income individuals through the use of wage subsidies. Using a pool of funds to subsidize wages, WSP providers recruit and enroll participants, develop jobs with employers, and provide ongoing services to ensure successful entry into unsubsidized employment.

SNAP E & T Venture IV - This initiative is designed to provide workforce development, education and training to SNAP applicants and recipients through targeted job placement services. The program is aimed at supporting individuals faced with barriers to employment. Through the awarded organizations, eligible participants can earn a number of credentials enabling them to become qualified for jobs that are in demand by local employers.
