

Targeted Food Stamp Outreach (TFSO)

Request for Proposals

Questions and Answers

Question 1 **Is the \$150,000 a one year amount that must be available for the match, or is that amount for the duration of the 5 year contract?**

Answer: \$150,000 represents the minimum amount of non-federal funds coming from private non-governmental sources that needs to be contributed in the first year of the contract. If the contract is renewed beyond the first year, at least \$150,000 in additional matching funds must be identified each year in order to continue the program. When completing the 5 year projected budget, assume that the first year non-federal funding amount will be available for the subsequent 4 years. Also, please note that the Targeted Food Stamp Outreach Program is a reimbursement program, not a match program. Federal funds are available to reimburse contractors for 50% of the approved expenditures.

Question 2 **If an organization receives some funding already to perform food stamp outreach, can we use OTDA funds to increase and complement those activities and food stamp goals, or will it be required that the performance targets for both programs be kept separately?**

Answer: An organization may use TFSO funding to expand upon eligible activities already taking place, but may not use these funds to supplant funds or duplicate existing efforts. An organization would need to demonstrate how funding sources are cost allocated between the two outreach efforts, and define and track the separate outcomes for each.

Question 3 Can local government dollars, which have no federal basis at all, be the local funding request under this RFP? Page 5 of the RFP implies that the local funds provided by applicants must be non-“federal”. Yet page 6 implies that the local funds must be “non-governmental”.

Answer: The non-federal local funds must be from private non-governmental third parties.

Question 4 What is required in regards to funding? Does the applicant have to have local funding or just provide proof that they have \$150,000 non-OTDA funds to front the project?

Answer: For the purpose of proposal submission, an applying organization must complete and submit Attachment B5 to identify the source and amount of eligible dedicated funding to draw down an equal amount of Federal reimbursement funding. If a contract is awarded, the contractor will be required to provide verification of the non-federal funds being used to support TFSO activities.

Question 5 Can the LDSS apply for the funds and then contract parts out for outreach with one or more agencies?

Answer: An LDSS is not eligible to apply as the lead contract agency. Organizations eligible to apply are limited to not-for-profit organizations, such as community based organizations. An agency must be a 501(c) (3), tax-exempt organization incorporated for a purpose sufficiently broad enough to include providing services or other assistance to economically or socially disadvantaged individuals or families.

Question 6 What types of other organizations can assist (including municipalities) with the remaining 50% of the project costs and how does that get explained in the proposal? For example, can we use United Way, and if not, why?

Answer: The required non-federal fund contribution may include donations from non-federal third parties, such as charitable foundations/organizations. The 50% contributed by the applicant organization is reflected in the proposal in several ways. As mentioned above, Attachment B5 must be completed to indicate the source and amount of the non-federal funding. The Technical proposal would reflect the services and activities that will be supported with the federal and non-federal funds. Finally, the Line-item budget is used to show what specific expenses the 50% local contribution will cover. As a charitable organization, the United Way would be an eligible source for the 50% non-federal contribution.

Question 7 **Are Community Block Grant funds allowable match funds if we are currently using them to provide outreach activities?**

Answer: No. Only cash donations from non-federal third parties such as charitable foundations/organizations can be used as the local contribution.

Question 8 **Can the value of outreach activities performed by volunteers be used as local funds?**

Answer: In kind services cannot be used toward the local contribution requirement.

Question 9 **Do the local funds have to be at least \$150,000 if the grant amount is less than \$150,000?**

Answer: Since the minimum grant award is \$150,000, the minimum amount of the local contribution also needs to be \$150,000.

Question 10 **Will a letter from a potential funder stating they are very interested in supporting our proposal at the amount requested but cannot commit before July 29th be a sufficient alternative to an up-front local funding contribution? If not, do you have any other suggestions for how to address this issue?**

Answer: In order to be considered for an award, OTDA must have assurance that at least \$150,000, in non-federal funds from an eligible third party is in place by the start date of the contract. A letter from an “interested” potential funder would not qualify.

Question 11 **Can lead organizations who are responding to the RFP identify some of the agencies who are part of the initiative once they are awarded a contract from OTDA? If we decide to secure organizations at a later date through a competitive process, would our proposal be penalized during the scoring/review process?**

Answer: If the lead applicant organization plans to partner with other agencies to perform certain outreach activities, this arrangement should be detailed in the proposal narrative and budget. While it is preferable to have agreements with the specific agencies in place, we recognize that these often cannot occur until after the contract is awarded.

Question 12 **The proposal indicates that OTDA would prefer for organizations participating in the project to use myBenefits. What type of functionality does the myBenefits tool have for tracking the outreach services offered to clients and to track the outputs and outcomes of the community organizations working on the project? Would OTDA approve or penalize the use of an alternative screening or is myBenefits the only option? If that is the case, how will we be able to get access to client data and work needed by organizations to effectively manage their operations?**

Answer: Applicant organizations are expected to maximize use of myBenefits to assist individuals in applying for food stamps. This is an online tool that not only screens for multiple programs, but can be used to apply online for food stamp benefits. Soon applicants will also be able to apply online for HEAP and recertify for both food stamps and public assistance. Customers can also obtain benefit information online at www.myBenefits.ny.gov . Therefore, the tool should be used to help

customers find out about and apply for food stamps. Providers would need to find a method to track the outputs and outcomes of the community organizations working on the project.

Question 13 **The proposal indicates that \$1.5 million is available for NYC and that one organization can receive no more than \$900,000. What if an organization is writing a joint proposal and the second organization will serve as co-lead on the effort? Would it be possible to submit a program budget for the full \$1.5 million or some value greater than the \$900,000?**

Answer: A proposal may be submitted for \$1.5 million. The RFP states that half of the \$3 million that is available is expected to be awarded to service providers in NYC. If there is more than one viable NYC applicant, the maximum amount one applicant could receive is \$900,000, unless the amount requested from other selected applicants is less than \$600,000. Please note that a joint proposal submitted on behalf of two agencies must designate one of the agencies as the lead agency for contract purposes.

Question 14 **If we do not intend to purchase services from M/WBE vendors, are we still subject to MWBE compliance requirements? We are subcontracting with community based organizations for the delivery of social services. Are we still required to fill out the form and submit?**

Answer: All applicants should review Appendix Z which outlines the M/WBE program participation and goal requirements of all OTDA State contractors, and be familiar with OTDA's M/WBE compliance requirements. All applicants are required to complete the M/WBE Subcontractor Utilization Plan and Certification of Good Faith Efforts Forms and include it in with their proposals. In addition to direct subcontracting on State contracts, applicants/contractors may also utilize other vendors to support program operations where applicable. Using NYS certified M/WBEs as providers of these second

tier services can be counted in satisfaction of the goals established for this procurement.

Question 15 **Will in-kind services provided by subcontract agencies be included as part of the reimbursable expenses?**

Answer: Any in kind services provided by subcontract agencies are not reimbursable, and cannot be used toward the local funding contribution requirement.

Question 16 **Can you provide more clarification on specific mediation activities that are allowable under this contract? Our outreach network has traditionally helped clients to navigate the food stamps process to make sure that our outreach and screening efforts ultimately work to get clients enrolled in benefits. While we do not represent clients in disputes about their cases with government agencies, we do walk clients through a step by step process that will ultimately lead to food stamps enrollment.**

Answer: Section III C of the RFP (pgs. 7-8) lists the activities that are allowable and those that are prohibited. Based on the description provided, the assistance you currently offer is allowable.

Question 17 **Can funding received from the Nutrition Consortium of New York State under the Nutrition Outreach and Education Program (NOEP) be used for the non-Federal funding contribution?**

Answer No.

Question 18 **Can funding received from the New York State Department of Health under the Hunger Prevention and Nutrition Assistance Program (HPNAP) be used for the non-Federal match?**

Answer No.

Question 19 **How many agencies will be granted awards in NYC?**

Answer: We are unable to answer this question. The number would depend on the number of NYC applicants, the amount of funds requested, and the results of the evaluation process.

Question 20 Can you provide the mailing address and contact person of the NYC LDSS?

Answer: See attached county listing of all Food Stamp Directors.

Question 21 What is the process for obtaining support from NYC-HRA of a TFSO Proposal?

Answer: HRA/DDS reviews proposals very carefully and gives each request serious consideration; paying particular attention to programmatic, fiscal, administrative, and legal aspects. Requests for Letters of Support and/or Partnership (including the supporting documentation outlined below) must be submitted to HRA/DSS and received no later than two (2) weeks prior to the **deadline** for the solicited funding opportunity. Except in extraordinary circumstances, HRA/DSS will not commit to perform any tasks (including participant referrals) **unless** it has been determined that the proposed program meets an unmet need, is innovative, and consistent with HRA/DSS' goals and objectives through discussions prior to the development of the proposal.

The following outlines the information that **must** be included in all requests for a Letter of Partnership and/or Support:

1. Cover letter with the following information:
 - Name of funding opportunity and grantor;
 - Brief description of the proposal, the objective and the issue to be addressed;
 - Total dollars requested, including any in-kind commitment to the program
 - Target population and geographic area;

- Number of clients to be served, including job placements if relevant;
 - Outcome measurements;
 - Reimbursement model (whether it is performance-based or cash-based);
 - Whether an evaluation of the program will be prepared and a report issued and if not, how you plan to determine the effectiveness of the program model;
 - Attestation that the organization's information on the Vendor Information Exchange System (VENDEX) is updated, valid, and there are no liens or caution concerns (www.nyc.gov/vendex);
 - Statement that a recent audit was conducted and there were no serious findings reported;
 - DUNS Number;
 - Tax Identification Number; and
 - Authorized contact person, telephone number and email address of the requesting organization.
2. Years the organization has experience providing this type of service and corresponding performance outcomes that support the organization's track record.
 3. A substantially complete written proposal (excluding appendices).
 4. A budget listing personnel, other than the personnel services, and overhead costs associated with the program ***in addition to*** any budget forms deemed necessary by the grantor.
 5. Listing of all New York City or other governmental contracts awarded (prime or sub-contractor).

Please send all of the above information **via email, mail or messenger*** to:

Kathleen O’Hara
Director, Office of Grant Administration
NYC Human Resources Administration/DSS
180 Water Street – Room 1116
New York, NY 10038
oharak@hra.nyc.gov

* Hand-delivered requests should be taken to the mailroom located on the first floor (please retain receipt).

Question 22 **Since one of the allowable expenses is “training or train the trainer programs for food stamp outreach workers”,**

- **How much training will be required?**
- **How long will these trainings last?**
- **How many of them will there be?**
- **Where will they be held?**
- **How many of them require all food stamp outreach workers to attend? (Can one person attend, and return to train remaining food stamp outreach staff)?**
- **Will any of the trainings be available via webinars or other distance learning methods?**

Answer: The training you refer to will not be conducted by OTDA. If this is the outreach strategy you propose to offer, you would decide on the training’s content, length, size and method of delivery, and be responsible for ensuring the proper instruction is provided.

Question 23 **What equipment is required for food stamp outreach workers?**

Answer: Once again, any decision about equipment needs rests with the applicant organization.

Question 24 **Are fringe benefits paid by local agencies, such as Workers' Compensation and Unemployment Insurance allowable expenses?**

Answer: Yes. Fringe benefits, including Social Security tax, Workers' Compensation, Unemployment Insurance, and Disability Insurance are allowable expenses.

Question 25 **Are there specialized materials or forms required? Will these be supplied or do we need to budget for them? If so, what kind of costs per hundred?**

Answer: OTDA does not anticipate requiring contractors to use any specialized materials or forms. If an applicant organization believes materials/forms are needed in order to fulfill outreach activities, the cost of these items should be included in your proposed budget.

Question 26 **Is there a guideline or cap for direct expense administrative costs or in-kind/local contribution administrative costs?**

Answer: There is no cap placed on administrative costs that are supported with the federal food stamp funds and the local cash contribution secured by the applicant organization. However, as noted in the Evaluation Criteria section of the RFP, priority will be given to budgets that minimize administrative costs in favor of direct program outreach costs. Please note that in-kind costs are not allowed to be part of the TFSO budget.

Question 27 **The RFP indicates on page 5 that the intention of this program is to outreach to geographic areas of the State that have not been previously served with Food Stamp outreach activities. Can we apply if we are funded through NOEP to serve a county but are interested in serving a specific population in that county that is underserved? For instance, we operate the NOEP program in**

Westchester County – can we apply to serve specific areas in northern Westchester County that are underserved?

Answer: Yes. However, as stated in the answer to question 2, the TFSO funds may only be used to expand upon eligible activities already taking place, and cannot be used to supplant existing funds or duplicate existing efforts.

Question 28 Please define the state nutrition education plan (referenced on page 8) and clarify what is expected of applicants in terms of coordination with nutrition education activities. Is there a formal plan with deliverables and targets that applicants should review and be aware of when developing our outreach strategies? If so, how can we access this plan? If there is no formal plan, please clarify the expectations of applicants in developing outreach programs that comport with this requirement.

Answer: A TFSO proposal can serve to demonstrate a community's commitment to improving the nutrition and health of low income residents. As organizations decide how to structure local Food Stamp outreach activities, they can also devise ways to promote partnerships and strategies to raise awareness of nutrition assistance and the benefits of SNAP. NYS administers the 'Eat Smart New York! Program'. This program provides local nutrition education services to food stamp recipients or food stamp eligibles. At the local level, the program is administered by the Cornell Cooperative Extension. Outreach providers ARE NOT expected to provide nutrition education. However, outreach providers can **inform** Food Stamp applicants about the availability of nutrition education as part of the food stamp program. Applicants for TFSO can collaborate with local CCE ESNY educators to assist them with communicating the nutritional benefits of the food stamp program. Some collaborative activities include, but are not limited to, partnering with ESNY educators at farmers markets or other outreach events to provide

food stamp eligibles information about how food stamps can help you to purchase healthy food, or providing ESNY outreach materials to food stamp applicants. For other ideas about how Outreach providers can collaborate with FS nutrition education providers, see this community Toolkit for Food Stamp Outreach:

<http://www.fns.usda.gov/snap/outreach/pdfs/toolkit/2011/Community/Communications/partnerships.pdf>

Question 29 **Please clarify the definition of non-Federal funds that may be used to access reimbursement. Page 9 of the RFP states “Only non-Federal funds may be used to access the reimbursement. The non-Federal funds may include cash donations from non-Federal third parties such as charitable foundations/organizations. The non-Federal funds cannot include private cash donations from an individual”.) Catholic Charities Community Services (CCCS) receives a significant subsidy from Catholic Charities, Archdiocese of New York (CC), which includes private cash donations from individuals. (CCCS and CC are separate, independent not-for-profit corporations, each with its own EIN). Does this policy restrict reimbursement under this contract only to cash donations made by charitable foundations and organizations?**

Answer: The required non-federal fund contribution may include donations from non-federal third parties such as charitable foundations/organizations, and the Archdiocese of New York would qualify as a charitable organization. Although a portion of the funds provided to you by the Archdiocese of New York may have originated from private cash donations from individuals, it would be an eligible source to serve as the non-federal contribution for TFSO purposes. Since these funds are under the control of the Archdiocese of New York, and the decision of how they are used rests with them, they would no longer be considered donation from private individuals.

Question 30 **How is New York City defined for the purposes of this solicitation? Can applicants provide services to only one county within New York City (e.g. Manhattan), or a portion of a county (e.g. Northern Manhattan)? Please clarify.**

Answer: A NYC applicant organization can choose to serve all of the 5 boroughs, or may elect to concentrate on serving only certain boroughs.

Question 31 **Section II.B (page 5) appears to indicate a minimum grant award of \$150,000, but there is no mention of a maximum award size. Please confirm if there is a minimum and/or a maximum, and if so, how much these might be.**

Answer: The minimum award amount will be \$150,000. Since half of the federal funds are expected to be split evenly between service providers located in NYC and those located outside of NYC, the maximum award possible would be \$1.5 million.

Question 32 **Section IV.B (page 11) indicates that a 5-year summary of expenditures is requested. Given the instability of the current and future economic environment, if in years 2-5 a grantee's available local non-federal contribution increases or decreases, could the Targeted Food Stamp Outreach grant funds be increased or decreased accordingly?**

Answer: If a contractor's non-federal contribution decreased in subsequent years, the federal funding that could be made available would decrease proportionately. However, if a contractor's non-federal contribution decreased to below the \$150,000 minimum any subsequent year, no additional federal funds could be awarded. The availability of a higher non-federal contribution from a contractor would not result in additional federal funds being awarded.

Question 33 **Is assisting applicants to submit Food Stamps applications on-line an allowable and reimbursable activity?**

Answer: Such assistance would be an allowable activity, and the cost involved (i.e. staff time) would be an eligible expense.

Question 34 **Section II.D (page 9) indicates that “the non-Federal funds cannot include private cash donations from an individual”. If the applicant agency’s annual budget includes a percentage from fundraising activities, which may include individual cash donations, could these agency funds/resources be used to meet the non-Federal match requirements?**

Answer: The portion of the non-federal funds raised through fundraising activities that are donated by charitable foundations/organizations would be an eligible contribution for TFSO purposes. The portion that comes from private individuals would not.

Question 35 **Given that there are no advance funds available, how often will reimbursement vouchers be submitted, and what is the projected turnaround time for the submitting agencies to receive these funds?**

Answer: Vouchers should be submitted on a quarterly basis. Prompt Payment legislation requires that correctly submitted invoices and standard vouchers be paid by OSC within 30 days of receipt.

Question 36 **Would a proposal from a consortium of statewide organizations that identify specific counties to serve in upstate New York be allowable?**

Answer: Yes. A proposal submitted on behalf of a consortium of statewide organizations must designate one of the agencies as the lead agency for contract purposes, and must include in their application a description of the roles and responsibilities of the lead applicant and each co-applicant.

Question 37 **Would a proposal from a consortia comprised of statewide, regional and/or county specific organizations to serve specific counties in upstate New York be allowable?**

Answer: Yes. Such a proposal must designate one of the agencies as the lead agency for the consortium, and must include in their application a description of the roles and responsibilities of the lead applicant and each co-applicant.

Question 38 **If the applicant must identify \$150,000 in allowable dedicated funding on an annual basis for each year of the 5-year cycle October 1, 2011 – September 30, 2016, must the resulting total amount of \$750,000 be identifiable at the time of application or just the annual requirement of \$150,000?**

Answer: At the time of application, only the \$150,000 in non-federal funds would need to be identified. However, when completing the 5 year projected budget, assume that the first year amount will also be available in the following four years, or \$750,000 in this example. As noted in response to question 31, a minimum of \$150,000 in non-federal funds is required each year in order to be eligible for additional federal funding.

Question 39 **On Page 5, Section IIB (Available Funds/Award Amounts) the RFP states that “Up to \$3,000,000 in Federal food stamp funds will be combined with \$3,000,000 in eligible non-Federal funds identified by applicant organizations” and later in the application on Page 6 it refers to “non-governmental sources.” Will municipal and/or county funds be eligible for this project?**

Answer: Since municipal and county funds originate from a government source, they cannot be used toward the local funding contribution required by TFSO.

Question 40 **Must the applicant perform all 13 of the Allowable Outreach Activities?**

Answer: No. An applicant should offer those activities that they feel can best help achieve the goals of this RFP.
