

# SNAP Opportunities Non-federal Funding Agreement

Reimbursement through the SNAP Opportunities program is contingent upon the applicant organization’s ability to produce an equal amount of eligible non-federal funding to support the program. OTDA will reimburse each SNAP Opportunities organization 50% of program expenses, up to the maximum amount listed on the approved contract budget.

The required non-federal funding will be derived as follows:

Name of Eligible Funds	Funding Source <small>(Name of Foundation, origin of funds)</small>	Type of Funding / Description of Funding <small>(Cash / In-Kind) (Describe)</small>	Amount
<b>Total</b>			

I understand that SNAP reimbursement from OTDA is contingent on our ability to obtain sufficient eligible non-federal funds to support 50% of program expenses. I attest that to my knowledge, the funds listed above are not being used as a match for federal funding purposes. I agree to retain and make available to representatives of OTDA and/or USDA, evidence that the total value of submitted claims has been expended in support of the SNAP Opportunities program.
