Description: To address job retention in the Mohawk Valley, OTDA is providing seed
money for the establishment of an Employer Resource Network (ERN)
project in the region.

ERNs are public/private partnerships with the main goal of uniting businesses
and community

partners to improve job retention and advancement for
low-wage/low-skilled workers. ERNs are made up of a consortium of
typically small to mid-size businesses that share resources to benefit all
member businesses. ERNs also include strong partnerships with other service
delivery systems and organizations such as social service agencies to support
employees and businesses. The key service for job retention offered by ERNs
is short-term case management for employees of the ERN provided through
retention specialists/"Success Coaches" to confidentially resolve
work, personal and family challenges that interfere with employment.

Organizations eligible to apply for funding under this initiative are limited to
non-profit
organizations. For-profit organizations will not be allowed to respond to this
procurement.

Applicant organizations may apply independently, or as a lead organization
of a consortium of

organizations.

Minority Owned Sub-Contracting Goal: 15%
