88 ADM-23		Part 457	Article 9-B Secs. 33.13 (d), 41.01 and 41.13MHL		

The purpose of this release is to clarify state policy regarding the completion of mental health assessments for certain Protective Services for Adults (PSA) clients.

As indicated in Section IV.D of 88 ADM-23 "Protective Services for Adults: Serving Involuntary Clients", the State Office of Mental Health (OMH) has advised us that it is the responsibility of local mental health departments to provide or to arrange for the provision of mental health evaluations on behalf of involuntary Protective Services for Adults (PSA) clients for whom the district is contemplating legal intervention. Also indicated in this section of the ADM is OMH's position that these evaluations may be shared with the districts pursuant to Section 33.13(d) and the provisions of Sections 41.01 and 41.13 of the Mental Hygiene Law, without violating client confidentiality. Despite this policy, in recent weeks a number of districts have contacted the Department about the problems they are encountering in obtaining psychiatric evaluations from local mental health providers on behalf of PSA clients.

In response to these problems, we requested OMH to clarify state policy on this issue for its regional offices and local mental health departments. Attached for your information are copies of a recent memorandum from Senior Deputy Commissioner Alice Lin to the OMH Regional Directors on this subject and a related memorandum from OMH's Counsel, which should result in the satisfactory resolution of any problems districts are having in obtaining mental health evaluations on behalf of PSA clients.

Judith Berek
Deputy Commissioner
Division of Adult Services
