The patient named above in Part I, Patient Information, has been determined by the _____ Certified Home Health Agency as being inappropriate for home care services and requiring placement in a residential health care facility placement (RHCF). Placement proceedings will be initiated unless the patient's physician certifies that the patient's ability to perform the activities of daily living would diminish, if RHCF placement occurs.

After completing Parts II. and III., sign the certification statement located on the back side of this form, and return to the Certified Home Health Agency in the enclosed envelope.
