I. Purpose

This Administrative Directive provides instructions to social services districts for the submission of plans to the Department for activities exempt from the State share cap on administrative costs for State Fiscal Year 1992-93.

II. Background

The Aid to Localities Budget requires that, for State Fiscal Year 1992-93 (Chap. 53 of the Laws of 1992), State reimbursement of aggregate local administrative costs claimed through the RF2A "Monthly Statement of Administrative Expenditures and Claims Purchase of Service Expenditures and Claims for Federal and State Aid" (DSS-1272A-1) for the determination of recipient and applicant eligibility and benefit payments for the Income Maintenance, Medical Assistance and Food Stamp programs shall not exceed aggregate statewide reimbursement for such purposes in the 1991-92 State Fiscal Year. The budget provides that costs of revenue maximization, cost containment, Native American services, corrective action efforts necessary to reduce public assistance and food stamp error rates, fraud and abuse detection activities and case management services provided under Title 4-B of Article 6 of the Social Services Law shall be exempt from the reimbursement limitations for a local district, if such services and activities are provided for in a local plan which has been approved by the Department. Costs related to JOBS, Services, Child Support and Training are exempt from the cap on administration.

The Department is now informing the local districts to begin to develop and submit the local plan required by the budget.

III. Program Implications

Upon submission and approval of a local district plan, one or more of the activities listed in this part or any other activity that is included in the approved plan shall not be subject to the limit on the State share of reimbursement as delineated under Background above. Once a plan is approved, the salary and related fringe benefits, identifiable non salary and the proportion of overhead costs attributed to the staff will be exempt to the extent that the costs exceed State share levels in the cap base or, from the previous year. Base year expenditures are those costs incurred during the 1989-90 State Fiscal Year, or the first year of the initiative's existence. Local districts have the option of comparing the current year cost of the initiative to the base year or the previous calendar year when computing the exemption request. Such activities of staff devoted full time or full time equivalent may include but are not limited to the following:

- A. Revenue maximization:
 - (a) Conversions of Predetermination Grant Aid to Dependent Children, (PG-ADC) cases to Aid to Dependent Children, (ADC), Emergency Assistance to Families with Needy Children (EAF),
 - (b) Third Party Health Insurance, including Medicare maximization
 - (c) MA Disability Determination Reviews
 - (d) MA Federally Non Participating (FNP) to Federal Participating (FP) Activities
 - (e) Referrals for Supplemental Security Income (SSI) determinations

- B. Corrective Action efforts:
 - (a) Quality assurance staff that review cases for high risk, error prone elements, e.g.: earned income, 18-19 year olds, Social Security Number enumeration, school verification; establish error trends after case reviews; develop, implement and monitor a corrective action plan to address identified error trends.
 - (b) Staff that address targeted areas, e.g.: Internal Revenue Service (IRS) 1099's, Automated Case Management Evaluations (ACME) reports and other Welfare Management System (WMS) generated reports.
 - (c) Staff devoted to keeping MA error rate below the Federal penalty level.
 - (d) Staff devoted to reducing and/or maintaining the food stamp error rate.

- C. Fraud and Abuse Detection:
 - (a) Investigations
 - (b) Prosecution Referrals
 - (c) Recipient Restriction Program (RRP)
 - (d) Front End Detection System
 - (e) Claims and Collection Activity (CAMS)

- D. Case Management Services:
 - (a) Client services provided by local district staff under the Teenage Services Act (TASA) (Social Services Law 409-i). This provision only applies to districts which report TASA costs as part of its administrative claim.

- E. Cost Containment:
 - (a) Medical Assistance Managed Care
 - (b) Medicaid for Children with Handicapping Conditions
 - (c) Recipient Restriction Program
 - (d) Medicare Care Coordinator Program

- F. Native American Services:
 - (a) Fully exempt for an amount equal to the State share of administrative costs claimed on the RF-3 for Income Maintenance and Medical Assistance.

G. Department Initiatives:

- (a) Administrative costs associated with the DeAllaume v. Perales decision.
- (b) Security measures instituted since 10/15/92.

Social Services districts are being notified of their respective caps via Attachment 3. Once a Social Services district receives approval of one or more exempt areas, the approved State share amount will be restored on a future claims settlement.

IV. Required Action

Social Services districts may submit a plan to the Department for any activities that they believe fall under the exempt areas listed. The plan should include at a minimum the following information:

- A. Exempt area title and a description of the activity.
- B. The gross and State share amount that was claimed during calendar year 1991, or the base calendar year used in establishing these costs.
- C. The gross and State share amount that was claimed during calendar year 1992.
- D. For those projects requiring case review; the number of cases reviewed and the number of case closings, budget reductions or cases shifted to federal programs as a result of the reviews.
- E. Number of full time or full time equivalent (FTE) staff assigned to the activity.
- F. An estimate of the State share savings, revenue or other outcome realized as a result of the activity for calendar years 1991 or base year and 1992.

A separate worksheet (attached) with the above information must be submitted for each exempt area along with a description of the activities for which the district is requesting an exemption.

Please note:

- The attached format must be completed for each activity and summarized, as indicated. Provision of all data requested will greatly enhance the capability of the required review and reduce requests for additional information.
- Do not submit a plan if your district has not exceeded its cap.

- Each activity must have greater costs in 1992 than in 1991 (or the base year) in order to qualify for exemption.
- Indicated State share savings should be sufficient to justify an exemption for the increased cost.
- Expenditures included on the Schedule D-10 (DSS-2347F, Claiming of Fraud & Abuse Administrative Costs) will be included in expenditures applied to the cap. For exemption, these expenditures must be detailed in your plan.
- Exemption is only granted for the net difference between 1991 (or base year) State share costs and 1992 State share costs for approved activities. For new activities, the entire State share will be exempted, (if approved) and the base year should be continued with zero expenditure.
- When precise State shares of costs or savings are not available, a best estimate is acceptable.

Social Services districts are to submit a plan by September 17, 1993 to:

Roland F. Levie, Principal Accountant
Bureau of Local Financial Operations
NYS Department of Social Services
40 N Pearl Street - 8D
Albany, NY 12243

The Department will evaluate each district's plan and advise the district of its approval/disapproval of each activity when the required Department evaluation has been completed and approved by the State Division of the Budget. The Department's review team will consist of staff from the Office of Budget Management, Office of Quality Assurance and Audit, Office of Financial Management, and involved Program Divisions. At the time of completion of the review of the district's plan, the district will be notified of the results of the Department's review and what amount, if any, would be restored.

VI. Effective Date

The effective date of this Administrative Directive is August 1, 1993. However, approval of any exempt area(s) is retroactive to the April, 1992 claims settlement (January, 1992 claims) for any eligible expenditures.

John M. Sweeney
Assistant Commissioner
Office of Financial Management
