DSS-4037EL (Rev. 9/89)

Transmittal No: 93 LCM-27

Date: March 23, 1993

Division: Commissioner's  
Office

TO: Local District Commissioners

SUBJECT: Implementing Certain Provisions of  
the Election Reform Act of 1992

ATTACHMENTS: Attachment #1: List of County Boards of Election  
(Not Available On-Line)

The Election Reform Act of 1992 is intended to make voter registration forms more widely available in public agencies. The Department seeks your assistance in achieving this objective. We have agreed, in cooperation with the State Board of Elections, on an approach to increase the availability of voter registration forms without imposing any significant new burdens upon social services districts.

We have made a change on the common application form DSS-2921 to include a voter registration question and space for the applicant/recipient to check if that person desires voter registration forms. The new common application forms are now being shipped to you.

Each social services district should arrange to provide the appropriate voter registration materials to any applicant/recipient who makes such a request. To assist social services districts in meeting this objective, we have arranged for the State Board of Elections to provide each district with an initial supply of voter registration materials. This will include blank voter registration forms and a supply of posters encouraging voter registration. Additional registration forms can be obtained from your county Board of Elections. The name, address and phone number of each county Board of Elections is attached and is included as part of the voter registration form. The State Board of Elections has informed the county Boards of Elections of the participation of social services districts in the process. You may want to contact your own county Board of Elections to inform them of your participation in this program.
