DSS-4037EL (Rev. 9/89)

Transmittal No: 93 LCM-63

Date: June 10, 1993

Division: Health and Long Term  
Care

TO: Local District Commissioners

SUBJECT: Approval for Increases to Fees for Ophthalmic Services

ATTACHMENTS: 1. Fee Schedule Increase for Selected Ophthalmic Services  
(available on-line)

The Department of Social Services is pleased to announce approval by the Division of the Budget for increases to fees for ophthalmic services, specifically optometric examinations, dispensing and repair fees.

There has been an ongoing problem with the availability of eyecare services. Many counties have noted increased transportation and clinic costs resulting from limited access to community-based optometrists and opticians. The purpose of the fee increase is to improve access to eye care services by encouraging greater provider participation. It is anticipated that the increases will be offset by reduced transportation and clinic costs.

The specific services to be enhanced are noted on the attached procedure list. The procedure codes for comprehensive and intermediate examinations by salaried optometrists are being eliminated. Salaried optometrists will now be able to bill using the same codes as self-employed optometrists and will receive the same reimbursement for these services.

The new fees were effective April 1, 1993. We are preparing a letter to providers announcing the fee increase and will ask the state ophthalmic associations to publicize the enhancements to those who are not currently participating.

Date: June 10, 1993
