RESPONDENT EMPLOYER INFORMATION (IVDJRE / IVDRE1)

PASSOFF CODE "RE"

Purpose

Displays the name and address of each employer where the respondent has been employed or is currently employed. Can be used to quickly obtain the name and address of the respondent's employer.

Displays

- Employer name and address
- Source of the information
- Date the address was added to IVDJRE
- Date the address (or other information) was changed
- Code indicating current status of employment data
- IEX- income execution data
- FPLS respondent/employer exception code (see IVDRA)
- Tracking information on medical support execution notices sent to an employer

SOURCE-CODE

Source of the potential/actual respondent employer address lead. (Refer to Respondent Information Codes.) If an asterisk (*) appears with the source code, it indicates the SSN matches, but the name does not.

VER-IND

Denotes the current status of the respondent's employment verification.

V = verified employer address.

Attachment 3

N = reviewed; not a current employer.

Blank = no verification action taken.

I = verification being investigated.

D = duplicate employer record.

IEX-IND

Denotes the current status of the income execution to a particular employer or insurance carrier for income execution against a workers' compensation claim. (Refer to Income Execution Codes.)

IEX-DATE

Date of latest entry for IEX-IND.

EM-IND

Employer medical indicator code that tracks the status of medical support execution notices processed for the employer record.

EM-IND-DT

Date of medical support execution notice for an employer record. This is a protected field that is updated with today's date when an EM-IND is stored.

REMINDER-IND

Indicates if a payment reminder notice is sent to an employer for a respondent's income execution.

Blank = notice is automatically sent as long as all edits are met. N = notice is not sent.
