District Name:				
Conta	ct Name and Number:			
Health	Care Jobs program funds budgeted for services \$			
Will gı	ant diversion be used to enhance the number served? yes no			
Antici	pated start date of the Health Care Jobs program			
Antici	pated number of participants to be served during program period:			
Progr	am goals and services			
A.	A. List the types of jobs targeted within the health care sector, including prospective employers who will be targeted to provide the subsidized employment opportunities.			
В.	Provide an estimate of the range of wages to be paid, the number of hours to be subsidized each week, and the expected length of the subsidy period.			

C.	Provide a description of the pre-employment, concurrent or on-the-job education or training provided program participants (if any);
D.	Provide a description of expectations at the end of the subsidy period, including job placement services that will be offered to secure unsubsidized employment once the timeframe for the subsidy has expired.
E.	Provide a description of the types of supportive services, including child care and transportation supports and the job retention services that will be provided to program participants. This section should include a description of how participants will be informed of available work supports, including earned income tax credits and transitional program benefits and any case management services provided to help individuals adjust to work and retain employment.
