Section 2

I. Purpose

The purpose of this informational letter (INF) is to inform social services districts (districts) that beginning January 1, 2023, the Internal Revenue Service (IRS) adjusted the standard mileage rates, resulting in an increase of 7 cents per mile in the rate used for business mileage and an

increase of 4 cents per mile in the rate used for medical/moving mileage. The [IRS Notice 2023-03](#) was issued on December 29, 2022. Effective January 1, 2023, the IRS mileage rates are:

- 65.5 cents per mile for business mileage
- 22 cents per mile for medical/moving mileage

Unless an alternative rate is approved by the Office of Temporary and Disability Assistance (OTDA) as described below, a mileage rate of no more than the IRS rate for business mileage and no less than the IRS rate for medical/moving would be used by a district to reimburse Temporary Assistance (TA) and/or Supplemental Nutrition Assistance Program (SNAP) applicants and recipients who use personal transportation to attend assigned work activities.

A district may need to adjust its mileage reimbursement rate to be consistent with the rates identified in this INF.

II. Background

Section 333 of the New York State Social Services Law requires that each district submit a local Employment Plan for approval to OTDA every two years that describes the district's TA and SNAP employment services program. OTDA previously instructed districts to submit an Employment Plan for the calendar years 2022 and 2023 with the release of [21-LCM-14](#).

Section 7.1(b) of the 2022-2023 Employment Plan identifies the district's efforts to assist TA or SNAP applicants or recipients to obtain transportation necessary to get to and from a work activity approved by the district, including any mileage reimbursement rate used by the district. OTDA established a minimum reimbursement rate of no less than the IRS established rate for medical/moving purposes unless an approved alternate rate and methodology was submitted by a district and approved by OTDA. The maximum reimbursement rate used by a district cannot exceed the mileage reimbursement rate established by the IRS for business purposes.

III. Program Implications

Districts need to be aware of the change in the IRS mileage reimbursement rates for business and medical/moving purposes and should adjust local policies accordingly. Districts should also review their 2022-2023 Employment Plan to determine if an amendment is needed and if necessary, submit a Plan amendment following the instructions provided in [21-LCM-14](#). In most instances, a Plan amendment should not be required as the reimbursement rate is typically identified as equivalent to the IRS standard without referencing a specific value.
