Emergency Assistance to Needy Families with Children (EAF)

Financial eligibility for EAF is determined by the gross income immediately available to the applicant on the date of application, and if that income is at or below 200% of the federal poverty level for that household size, or if the household is eligible to receive TA. For additional EAF eligibility requirements see TASB Chapter 11.

HEAP Implications

There are no HEAP implications.

SNAP Implications

Please note that these Federal Poverty Level guidelines do **NOT** go into effect for SNAP on April 1st. Poverty guidelines for SNAP are updated each year on October 1st.

Diversionary requirements for TA do not apply to SNAP. A separate determination for SNAP eligibility must be done for individuals applying for both TA and SNAP who are being diverted from TA and are not already in receipt of SNAP benefits. Districts should encourage individuals expressing concerns about not having enough food or enough money to buy food (food insecurity) to apply for SNAP.

As always, on the day of application filing, all households that are applying for SNAP benefits, including those also applying for cash benefits, must be screened

to determine if they are eligible for expedited processing of their SNAP benefits. For those households that are found eligible for expedited processing, the district must process the application, and if determined eligible, issue the benefit in accordance with 18 NYCRR 387.8(a)(2)(i).

The federal poverty levels for SNAP eligibility determinations are adjusted each October. The income guidelines for SNAP eligibility determinations are adjusted each October. The income guidelines provided in GIS 12 TA/DC018 (August 22, 2012) remain in effect for SNAP.
