Emergency Assistance to Needy Families with Children

Financial eligibility for EAF is determined by gross income immediately available to the applicant on the date of application: if the available income is at or below 200% of the Federal Poverty

Level for the household size, the household is financially eligible for EAF. The following income guidelines for EAF are effective April 1, 2016 through March 31, 2017.

SNAP

Please note that these Federal Poverty Level Guidelines do not go into effect for SNAP on April 1st. Poverty guidelines for SNAP are updated annually on October 1st.

Diversions requirements for TA do not apply to SNAP. A separate determination for SNAP eligibility must be done for individuals applying for both TA and SNAP who are being diverted from TA and are not already in receipt of SNAP benefits.

As always, on the day of application filing, all households that are applying for SNAP benefits, including those applying for case benefits, must be screened to determine if they are eligible for expedited processing of their SNAP benefits. For those households that are found eligible for expedited processing, the district must process the application, and if determined eligible, issue the benefit in accordance with 18 NYCRR 387.8(a)(2)(i).

The Federal Poverty Level for SNAP eligibility determinations are adjusted each October. The income guidelines provided in GIS 15 TA/DC034 remain in effect for SNAP.
