\* Statewide and New York City sanction rates are estimated from federal disaggregated reporting samples, which are the source of such data used by the United States Department of Health and Human Services to determine if a state has met participation goals. Because the sample size is insufficient to permit sanction estimates for non-New York City districts, data for those districts are derived directly from automated systems. Thus, Rest of State and New York City counts may not sum to the statewide total. This table uses a federal definition of sanction and includes only persons who are deemed a work eligible individual and are sanctioned for non-compliance for work or substance abuse requirements. Estimates are from the latest available quarterly sample.
