1. Administration

1.1 Administrative Structure

a. This agency’s organizational chart is attached. It identifies the units and staff within the agency that are involved in the operation of the district’s employment program. (Attachments must be uploaded to the system through the “Documents” screen prior to submitting the plan. Use the textbox below to provide any additional information.)

Both the Orleans County DSS and Orleans County Job Development organizational charts are uploaded.

b. Below is a description of the office(s) in and/or outside of the Department of Social Services that are involved in the operation of the district’s employment program and include the responsibilities of each office.

The Department has a long-standing contractual relationship with Orleans County Job Development in providing employment services to Temporary Assistance and SNAP individuals. Over the years and continuing today, the two Departments have worked very closely together to develop policy, train staff and implement changes as quickly as possible to address ever-changing challenges and opportunities. Both departments are located in the County Administrative building. This promotes easy access to applicants/recipient and the ability to collaborate at both the administrative and operational levels. Another positive to note is the ability to refer TA applicants at intake to Job Development. The Welfare-To-Work (aka "Hire") contract is a calendar year contract and delineates each Department's responsibilities. It incorporates all the funding for district's employment programs in compliance with State directives. Included in the contract responsibilities are client-focused activities such as: employment orientations, employment readiness activities, assessment and employment plan development. In addition, the contract defines responsibilities to develop and implement a broad range of work activity options, to enroll sufficient clients in work activities to meet participation rates, and to conduct data collection activities in sufficient depth to meet State and Federal reporting requirements.

1.2 TA and SNAP Employment & Training (SNAP E&T) Provider Agencies

a. Table 1 lists the local contracts or agreements with agencies to provide employment services to TA and SNAP clients. These activities and services may include, but are not limited to: employability determinations; development of assessment and employment plans; conciliation and grievance activities; provision of work activities such as job readiness training; education and job skills training; monitoring and support for compliance with treatment plans for exempt individuals with the potential for restoration to self-sufficiency; job development; job placement and retention services; and other employment related activities.

Each contract listed in Table 1 contains an assurance that the activities are not otherwise available from that provider on a non-reimbursable basis, and, if not a performance-based contract, a statement regarding use of a cost allocation methodology that satisfies Generally
Accepted Accounting Principles, as well as the requirements of U.S. Office of Management and Budget Circulars A-122 for nonprofit organizations, A-21 for educational institutions, or A-87 for State and local governments. Districts must maintain proper monitoring and oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts.

☐ Other:

b. Described below is how the district coordinates with Career Center partners to provide services to the district’s clients, including referral and information sharing mechanisms, or other collaboration such as participation on the local WIOA Business Services Team, etc.

As an Affiliate Site in the GLOW Workforce Development Area (due to co-location of TANF & WIOA), officially the "Orleans County Career Center," Job Development is uniquely positioned to provide referrals for WIOA-funded services and other Career Center partners as WIOA staff are co-located in Job Development, and strong relationships have long been established with DOL and other agency counterparts within the One-Stop System. In accordance with the MOUs in place along with the approved GLOW Local Plan, Job Development works closely to improve upon service delivery within the system on behalf of the local district. Currently, Orleans County Job Development works closely with Career Center partners by appropriately referring participants for services, as identified through the assessment process and using the NYS DOL Referral Form, when appropriate. With appropriate client release, his/her Assessment and Individual Employment Plan is shared. Job Development staff advise individuals of the services available throughout the One-Stop System such as training assistance, available jobs and job referrals, virtual workshops and job fairs hosted by DOL, and potential education or training when available through WIOA or other resources. When appropriate, clients may be referred to ACCES-VR or other agencies that offer assistance specific to the client's needs. In addition, staff regularly refer clients to our Title II partners, particularly Orleans/Niagara BOCES which provides scheduled Job Readiness Trainings and individualized assistance with resume development, interview skills, customer service certification, HSE achievement, job placement and other employment- and education-related skills. We make every effort to partner with community based organizations, e.g. our strong relationship with Community Action of Orleans and Genesee which offers CSBG-funded employment and training opportunities for our clients, and to not only build upon existing partnerships but to identify new resources that will help us to better serve clients. The Orleans County JDA Director actively participates in all GLOW Workforce Development Area committee and board meetings as well as attending the regional Business Services meetings, whenever possible. The Director has also participated on work teams related to the Finger Lakes Regional Economic Development Council (REDC).
2. Orientation, Assessment and Employment Plan

2.1 Orientation (Reference 18 NYCRR 385.5)

b. Described below is how the district completes the required orientation for all applicants and recipients of TA (e.g. in a group setting, individually, or a combination of both). Please include the orientation procedure for exempt individuals and non-exempt individuals, if different:

   All applicants (exempt and non-exempt) are scheduled to participate in a one-on-one orientation with Job Development staff. Most times, the 1:1 appointment is in conjunction with the completion of the Assessment. Information is verbally provided to the individual. Job Development staff also explain the job search requirements. Orientations are done by phone or in person, as appropriate. Clients are notified by phone, email and/or mail, as available.

2.2 Temporary Assistance (TA) Employment Assessment

a. The district conducts assessments as required by 18 NYCRR 385.6(a) and 385.7(a). Check one of the following:

b. Described below is the district procedure for the completion of an employment assessment:

   An assessment is completed within 90 days from when recipients are determined to be eligible for TA, including 16 and 17 year-olds not in school. Usually, the assessment is completed within 30-45 days upon case opening and is updated on an on-going basis. Also, households without dependent children receive assessments within a year following their application. Based on the assessment, an Employability Plan is developed on WTWCMS and in consultation with the recipients to lead them to economic independence and is updated on an on-going basis when addressing the needs of families with multiple and significant barriers. Appropriate referrals are made, e.g. to ACCES-VR, veteran services and various literacy programs. Based on the assessment, DSS will refer recipients to GCASA, Mental Health, and IMA if deemed necessary.

3. Engagement

3.1 Federal “Engaged in Work” Requirement (Reference 18 NYCRR 385.2 (f))

a. Federal requirements state that parents or caretakers must be engaged in work as soon as the district determines they are ready, but no later than within 24 months of receiving federally funded assistance. The district’s definition of “Engaged in Work” is:

Compliance with assessment, employment planning, all activities included in the individual's Employment/Self-Sufficiency plan, including any need to attend treatment/rehabilitation programs, or any of the work activities listed in Section 4.1. Also included is pursuit of other forms of income such as SSI and SSDI.

b. Described below is additional information regarding the district’s “Engaged in Work” requirements:

N/A

3.2 Strategies/Procedures for Accommodating Individuals with Limited English Proficiency

a. Described below is how the district accommodates non-English speaking participants' access to employment activities and services:

Job Development staff has access to the Language Line. They have also received training on accommodating non-English speaking participants, including how to utilize Language Line. A shared spreadsheet with DSS staff is utilized to track usage. In addition, there are local providers who teach ESL who can sometimes assist during client interviews, as needed and with client approval (e.g. Orleans/Niagara BOCES). Participants are also informed that they may bring their own interpreter, if that's more comfortable for them. For WIOA clients, the Albion Career Center (NYS DOL) also subscribes to Language Line and provides access for our staff, when needed.
3.3 Strategies/Procedures for Increasing Program Attendance

a. Described below are the district policies and/or procedures used to reduce the number of times participants fail to participate in work activities. This includes absences with good cause:

Counselors work with participants to determine if supportive services or alternative placements, for instance, may assist the participant in meeting work activity goals. In addition, utilizing other resources in the community are researched. We endeavor to assist participants in succeeding and not to "set them up for failure." In particular, given the limited availability of public transportation in Orleans County (Community Action's Transportation Services, CATS, is no longer available; RTS Orleans has limited routes and times, with some variances allowed; and we have no LYFT or UBER), we have partnered with a local private foundation which has generously donated gas cards that our counselors can provide at their discretion to clients as deemed necessary if no other resources are accessible and so they can participate in employment and/or work activities.

3.4 Strategies/Procedures for Engaging Sanctioned TA Participants

a. Select all that apply:

☐ Described below are the strategies the district uses to attempt to engage sanctioned participants as soon as they are sanctioned:

☒ Described below are the strategies the district uses to attempt to engage sanctioned participants when the durational period of the sanction is completed:

When a sanctioned participant informs the TA worker of their willingness to comply, a referral is made to Job Development. Job Development staff then schedules the sanctioned participant for a 1:1 orientation and immediately engages the individual in an activity.

TA eligibility worker will refer individuals sanctioned beyond duration to the Welfare Fraud Investigator. Those sanctioned individuals will be required to meet monthly with the Welfare Fraud Investigator to establish on-going eligibility for Temporary Assistance. At each appointment, the Welfare Fraud Investigator will explore changes in case circumstances, household composition, medical condition, availability of resources, barriers to self-sufficiency, and household income/expenses. Individuals will be required to present at each meeting receipts or other acceptable verification of how previous month's bills were paid; shelter, fuel, utilities, phone, food, etc. The Welfare Fraud Investigator will discuss the benefits of work with the sanctioned individual, including supportive and transitional services available to support employment. The Welfare Fraud Investigator will continue to meet monthly with individuals sanctioned beyond duration.

☐ Described below are the strategies the district uses to attempt to engage sanctioned participants during different times in the sanction period:
3.5 Strategies for Reducing the Need for TA

a. Described below are the district’s strategies for reducing the need for TA:

Orleans County provides supportive services to divert applicants from needing Temporary Assistance. These supportive services are provided on a case-by-case basis and are only approved for individuals who are either already employed or have a promise of employment. In order to be eligible for a diversion payment, an individual must have verifiable employment or the promise of employment.

4. Work Activities

- Yes
- No

If Yes, select how the district participates in job development activities.

N/A
District contracts or has an agreement with another agency to contact employers and solicit jobs for TA and/or SNAP participants. Describe below how this is done, including number of staff, frequency of contacts, etc.

Job Development refers clients for recruitments and job fairs, both in person and virtual. In addition, Job Development coordinates Job Fair(s) in the community with local businesses and service providers; clients are referred to attend and learn about employment opportunities and community resources. Job Development staff also utilize local temporary employment agencies, communicate with businesses about their needs, and encourage employers to call when they need to fill positions. Identified candidates are referred to employers for interviews for job openings, when appropriate. Job Development also issues a weekly emailed newsletter, "Hot Jobs," listing current job openings and training opportunities. In addition, Job Development posts job openings, training opportunities, etc., on its web site and Facebook page, highlighting new opportunities every Tuesday at 11am with a Facebook Live session.

4.3 Training Approval and Activity Enrollment Policies (Reference 18 NYCRR 385.9)

a. Described below is how the district identifies appropriate education program providers for services of Adult Basic Education, High School Equivalency (HSE) diploma preparation, and English Language Instruction that are available to clients whose assessment indicates such services would be an appropriate work activity assignment:

The district has an on-going relationship with educational providers in our area and the availability to immediately enroll clients in appropriate educational activities listed above. The District utilizes education services primarily available through Orleans/Niagara BOCES.

b. Described below is how the district identifies appropriate program providers of Vocational Education and Job Skills Training programs that are available to clients whose assessment indicates such services would be an appropriate work activity assignment:

The district has an on-going relationship with many educational and vocational training providers in our area. They are aware of our attendance and satisfactory progress requirements. In addition, all educational and vocational training providers must be certified by the State Education Department, Veterans Administration, or be included on the NYS DOL Employment & Training Provider List (ETPL). The district will track the successful completion rate of students from their programs, the number entering training related jobs and their degree of cooperation in obtaining attendance and satisfactory progress report.

c. Described below are the process and guidelines workers follow to ensure that individuals who have not attained a basic literacy level and/or have not attained a high school diploma are offered the opportunity to participate in an educational activity:

- Nonexempt individuals who possess less than a 9th grade literacy level are encouraged, and may be required, to enroll in educational activities. These activities may include basic literacy, high school equivalency, or other educational programs.

- Nonexempt individuals who have attained a basic literacy level but have not attained a high school diploma or the equivalent will be offered, and may be required, to enroll in
educational programs designed to improve literacy level and/or prepare an individual to attain a high diploma or the equivalent.

- Individuals with limited English proficiency, without a high school diploma obtained in the United States, will be offered the opportunity, and may be required to participate in educational activities. These activities may include adult basic education or preparation for a high school equivalency diploma. Individuals with limited English proficiency will be assessed to determine whether enrollment in ESL is necessary before the individual is enrolled in an Adult Basic Education or secondary education program.
- Nonexempt individuals who have an IEP and have not attained either a high school diploma or High School Equivalency will be offered, and may be required, to enroll in an educational program designed to improve literacy levels and/or prepare an individual to attain a high school diploma or the equivalent.

- All educational enrollments will be based on assessments and the district will also consider other pertinent factors when determining whether or not an assignment is appropriate, such as:
  The extent to which the individual is capable of participating in and able to benefit from participation in an educational activity.

The individual's progress with the activity or progress achieved in similar prior activity assignments. When reviewing progress, districts will consider the time that has elapsed since prior participation, whether or not the prior enrollment was appropriate for the individual, and factors known or presented by the individual which may have impacted his or her ability to make satisfactory progress.

The individual's attendance or prior compliance with past similar educational activity assignments. When reviewing program attendance or prior compliance, districts will consider the time that has elapsed since prior participation and factors known or presented by the individual which may have impacted his or her ability to satisfactorily attend.

d. Described below are the district’s process and policy, including the guidelines workers follow, when determining whether participation in educational activities is approved for individuals who have not attained a high school diploma who are interested in participating in an educational activity. Include in this section instances when the district would deny participation in educational activities:

- Individuals will be assigned to educational activities consistent with their individual assessment and employment plan.

- Staff will review individuals’ progress with the activity or progress achieved in similar prior activity. When reviewing progress, district will consider the time that has elapsed since prior participation, whether or not the prior enrollment was appropriate for the individual, and factors known or presented by the individual which may have impacted his/her ability to make satisfactory progress.

- Individuals’ attendance or prior compliance with past similar educational activity assignments will be reviewed. When reviewing program attendance or prior compliance, district will consider the time that has elapsed since prior participation and factors known or presented by the individual which may have impacted his/her ability to satisfactorily attend.
- Staff will determine if the individual is capable of participating in and able to benefit from an educational activity.

- Individuals requesting to participate in an educational activity may be denied if the Counselor determines it’s an inappropriate work activity based on assessments, not an "in demand" occupation, and case review.

e. Described below is the district’s process and policy for determining whether a participant is approved/assigned to participate in job skills or vocational education activities:

The approval of an individual to participate in job skills or vocational education activities will be based upon (1) individual must show an active job search has been unsuccessful with the current skills and abilities and/or the individual cannot continue working in the same field due to limitations (2) the individual's current ability to reasonably compete for jobs in the chosen occupation without additional training, (3) attendance and satisfactory progress evaluations from previously assigned work activities, (4) prerequisite educational levels needed to be successful in the program, and (5) the client's readiness to seek employment after the training is completed. This readiness includes, but is not limited to, availability of transportation, child care and access/ability to participate in online learning, if necessary to the program.

Prior approval is required to enroll a client in vocational or educational training. An approval procedure is currently in place. The criteria are that the training cannot be more than 52 weeks in length, must be in a demand occupation and must provide sufficient skills enabling the trainee to move directly to employment.

f. Described below are the standards by which education and training providers are evaluated:

The district has referred clients to many educational and training providers in our area in the past. The providers are made aware of our attendance and satisfactory progress requirements. All education and training providers must be certified by the State Education Department and/or be listed on the Department of Labors Employment & Training Provider List (ETPL). Curriculum appropriateness is evaluated based on documented labor market demands and the employment needs in the area. The district tracks the successful completion rate of students from their programs, the number entering training related jobs, and their degree of cooperation in obtaining attendance and satisfactory progress reports.

g. Described below is the district's procedure for advising participants of approved training:

The Agency has books, pamphlets and lists of web sites and other resources (online and other) available from training facilities for the recipient’s use. Our Counselors will sometimes suggest a training facility that is currently running a specific program the recipient is interested in and suggest to the recipient to look into course offered. We also have compiled a list of online and in person training programs in the region that are pre-approved by NYSED and/or NYSDOL. We intend to make this available on our web site in the near future.
h. Described below is the district's procedure for notifying participants they are approved for training or enrollment in a work activity:

Recipients are notified via phone as well as via email, if available, and written notification by mail, unless undomiciled.

i. Described below is how the district will monitor the high school attendance for 16-18 year-olds in order for them to retain their TA exempt status:

The attendance policy is monitored by the Temporary Assistance staff by requesting School Verification annually.

j. Described below is the district's procedure for ensuring that an individual's health related limitations are accommodated when assigning the individual to a work activity:

Job Development staff will provide in writing participants’ medical restrictions or limitations to the Supervisor at their work assignment. (Privacy laws prohibit disclosure of medical conditions).

4.4 Post-Secondary Education Approval and Enrollment Policies

a. Described below is the highest level of post-secondary level education that the district will approve as a work activity, up to a four-year college program:

The district approves post-secondary education as a work activity if the post-secondary degree program includes/involves a relevant internship that meets or exceeds 10 hours/week. Time sheets signed by the internship provider are required and verified by the E&T Counselor.

b. Described below is how the district will ensure that enrollments in post-secondary education beyond the 12-month lifetime limit are combined with a weekly average of at least 20 hours in paid employment activities which may include work study, work experience or community service:

The district does not approve post-secondary education beyond 52 weeks/12 months.

c. In accordance with 18 NYCRR 385.9(b), regardless of whether the college program is approved for the participant as an employment work activity, the district will approve as a work activity a work-study, internship, externship or other work placement that is part of a non-graduate student’s curriculum unless one or more of the following conditions applies as checked below (Select all that apply):

- It has been determined that the student voluntarily quit their job or reduced earnings to qualify for initial or increased TA.
- A job or on-the-job training position that is comparable to the work-study, internship, externship or other work placement cannot reasonably be expected to exist in the private, public or not-for-profit sector.
- The student is not maintaining a cumulative C average (or the equivalent). The district may disregard this provision if the student documents an undue hardship.
- The institution or student fails to monitor and report information regarding the student’s attendance and performance as required.
☐ The student fails to progress toward the completion of a course of study without good cause, as determined by the district.
☐ The student has previously enrolled in work-study, internship, or other work placement and failed to complete the work placement without good cause as determined by the district.
☐ Additional reasons as stated below:

5. Work Requirements

5.1 Meeting TA Work Requirements

a. Described below is how the district plans to meet federal and State TA participation rate requirements. Include in this description the weekly hours standard participation requirements for individuals in the different case and household types, along with the typical time period it takes for nonexempt individuals to be engaged in activities for both newly opened cases and individuals whose status changed from exempt to nonexempt. (Information regarding engaging exempt individuals is entered in Section 9).

- The district plans to meet federal and state participation rate requirements by engaging individuals in activities immediately at opening. All non-exempt applicants are enrolled in a job search prior to case opening. Before the case opens the Job Development staff meet with applicants on a weekly basis to assess employability, skills, and to review job searches. Our goal is to have all nonexempt individuals assigned to start a work assignment on the day the case opens.

- When the status changes from exempt to nonexempt the TA Eligibility Worker refers the client to Job Development and the client is scheduled to participate in a 1:1 orientation and assessment again. Our goal is to have these clients engaged in activities immediately.

- Individuals are assigned to at least the minimum number of hours of participation for their case to count in the participation rate: true single parent families with a child under 6 to participate 20 hours weekly. Single parent families with a child six or older to participate 30 hours weekly. Safety Net Non-MOE individuals are required to participate 35 hours weekly or the hours of work experience as allowed by the amount of the public assistance and SNAP benefits. Two parent families in which one parent is disabled are required to participate 30 hours weekly. Two parent families, in which neither parent is disabled, may be required to participate up to 40 hours. WEP hours are limited to the monthly PA grant plus the Supplemental Nutrition Assistance Program (SNAP) allotment divided by the State or federal minimum wage, whichever is higher.

- Individuals assigned to work experience will usually be assigned to the maximum number of hours that the TA grant and SNAP benefits will allow (not to exceed 40 hours per week). WEP hours are limited to the monthly PA grant plus the Supplemental Nutrition Assistance Program (SNAP) allotment divided by the State or federal minimum wage, whichever is higher.

- When assigning individuals to paid or unpaid work activities we strive to assign individuals fully, within any limitations, up to 40 hours per week in one or more countable work activities.
b. Estimate the number of individuals expected to receive employment services for:

c. Described below is how the district uses work participation management reports available through COGNOS or other reports and activities to monitor district progress toward meeting work participation requirements and ensuring full engagement by adults in work or work preparation activities:

Each employment counselor reviews the various Cognos reports regularly to manage their caseloads and determines which Cognos reports are helpful in managing their caseloads. The Director and/or Workforce Coordinator reviews the various reports and addresses any issues/concerns regarding individuals not participating/not counting in the participation rate.

Prior to the anticipated case opening date, the case is transferred to the assigned Job Development staff to contact the applicant so they can be enrolled in a work activity as soon as possible upon case opening. Contact is attempted by phone, email, and by mail. We are in the process of making our job search forms fillable online to assist in this process. f. Described below is the district’s process and policy used for determining whether participation in self-employment is approved as part of an individual's required work activities, including the guidelines workers follow. If the district always approves self-employment as part of an individual’s required work activities, please note this policy below.

Self-employment is approved as part of an individual’s required work activities if included in the individual’s income budget. The individual completes a self-employment log and the income is divided per federal regulation to calculate the hours entered. If they are paid hourly minimum wage or higher, actual hours worked are used. Other employment and/or work activity is considered if there is no outlook for the applicant/recipient being self-supporting in the current self-employment.

5.2 Meeting SNAP Work Requirements

a. Described below is the extent to which the district requires NTA SNAP recipients to participate in SNAP E&T work activities. (Please note: Case management services must be provided to all participants enrolled in SNAP E&T activity):

Orleans County Department of Social Services does not require NTA SNAP recipients to participate in SNAP E&T work activity assignments.
b. If the district is offering Supervised Job Search as an E&T activity component, describe below how the job search activity will be supervised and tracked, including the frequency of monitoring the participant’s job search efforts.

N/A

c. If the district is not mandating SNAP E&T work activity assignments, please describe below how NTA SNAP work registrants are informed of the services available, upon request, for assistance with job search activities. (Please note: At a minimum, districts are required to offer job search assistance to NTA SNAP applicants and recipients):

The district provides individuals with written information on how to access assistance with job search activities through the Orleans County Job Development Agency (aka Orleans County Career Center, an affiliate partner of the One-Stop System).

6. Quality Assurance/Work Verification

6.1 Quality Assurance Process - Random Case Sampling

Consistent with New York State’s approved Work Verification Plan (WVP), and in accordance with the requirements established by the United States Department of Health and Human Services, districts must develop a quality assurance plan to ensure that the data reported, from which their work participation rates are derived, are accurate. The plan must include the district’s procedure for monitoring reported scheduled and actual attendance in paid employment and unpaid work activities and the controls in place to ensure that reported exemption statuses resulting in federal exclusions from the work participation rate calculation are accurately made, work eligible individuals are correctly identified, hours of attendance reported are accurate and documented, data entry is accurate and that the district and its providers adhere to the approved work activity definitions and the determination of countable excused absences and holiday reporting within federal limits. Each district must maintain the documentation to verify what is being reported to NYS OTDA.

Each district must describe how it will conduct periodic self audits to determine that system entries are consistent with documentation in case files. The district must also explain how it will choose the sample size, select sample cases and establish the review period (no less frequently than semi-annually). The plan must indicate the district will maintain documentation on all pertinent findings produced through its self audit process and that case records for all reviewed cases will be available for State and other auditors in their review of the local work verification system for the standard 6 year period associated with such reviews.

The district will sample cases from each month within the (6 month) semi-annual period. The October to March review will be due by May 20th. The April to September review will be due by November 20th. The results of these audits will enable the district to identify policies, processes or cases that may need corrective action.

After each self audit is completed, the district must submit a summary of findings to OTDA A&QI at AQI.WV.SelfAudits@otda.ny.gov for State review including specific information on each of the errors identified. In addition, when monitoring reveals substantial problems, the district must describe the corrective action it will take.
The Quality Assurance (QA) plan must include the following elements:

- Ensure that documentation of wages and actual hours of employment is verified and accurately projected/reported and present in the case file, is actual and is projected correctly;
- Ensure that the documentation for actual hours, supervision/attendance, excused absences, and holidays in other activities is present in the case file;
- Assess whether participation in the work activities reported for work eligible individuals meets the approved federal definition for the activity;
- Assess that the data entered into either WTWCMS, NYCWAY or other automated systems used for reporting work activities is accurate, including actual hours, excused absences and holidays; and is based on documentation in the case record; and
- Ensure that documentation necessary to determine an individual to be exempt due to being the parent caretaker of a disabled household member (Employability Code 38 or 48), and/or parent or caretaker relative of a child in the household under 12 months of age, (Employability code 31), is present in the case file and that individuals meet the exempt status based on the required documentation.

a. Below is the number of random sample cases of participation in paid work activities the district will review semi-annually. Refer to the Instruction Guide for the minimum number of cases per district and guidance regarding review requirements.
6 cases

b. Below is the number of random sample cases of participation in unpaid work activities the district will review semi-annually. Refer to the Instruction Guide for the minimum number of cases per district and guidance regarding review requirements.

c. Below is the number of random sample cases in which a case member is reported as an TA employability code 38 – “Parent needed in the home full time to care for an incapacitated/disabled household member” or TA employability code 48 – “Needed in the home to care for an incapacitated child full time – time limit exemption”. Refer to the Instruction Guide for the minimum number of cases per district and guidance regarding review requirements.
3 cases

d. Below is the number of random sample cases in which a case member is reported as an employability code 31 – “Parent or caretaker relative of a child under 12 months of age”. Refer to the Instruction Guide for the minimum number of cases per district and guidance regarding review requirements.
3 cases

The district will review district worker or approved provider/vendor collected documentation and data entry of the above listed elements. The district will assess and verify that participation in the reported work activities listed above meet the State approved definition for the activity.
6.2 Use of Outside Providers/Vendors

a. Does the district utilize outside providers/vendors to collect documentation and enter data directly into WTWCMS?
☐ Yes
☒ No

b. If Yes, does the district’s provider/vendor documentation collection, data entry and management of WTWCMS follow the same process that would be used by the district worker?
☐ Yes
☐ No

c. If No, describe below the process used:

7. Supportive Services

- Upon receipt of the two-three written estimates, or documentation per above, Orleans County will review to determine if car repairs can be paid. Contact must be made to the chosen repair shop to confirm only those repairs listed on the estimate are to be done. Once completed, the repair shop must submit a bill to Orleans County for payment directly to the repair shop.

b. Indicated below are the services the district will use to assist those participants who need transportation to and from an approved work activity site, including any applicable mileage reimbursement rate, and the method used by the district to arrive at that reimbursement rate. OTDA policy establishes a mileage reimbursement rate of no less than the IRS established rate for medical/moving purposes. In all instances, should the actual cost of transportation needed to participate in an assigned work activity exceed the reimbursement rate determined by the district, the district will reimburse for the actual costs based on reasonable documentation submitted by the work activity participant. Described below is the district’s procedure for determining if an individual, who is unable to work due to mental or physical impairment, has the potential through treatment or other rehabilitative activities to improve the ability to work. This determination is different from the determination of the individual’s disability exemption as covered in Section 9.1 of this Plan. Indicate who makes or assists in this determination that an individual can restore or improve employability through treatment or other rehabilitative activities (e.g., medical practitioner, employment worker, TA worker, local review team, etc.). Also indicate the source and type of information used to make the determination (e.g., information from individual’s medical practitioner, district contracted provider, specialist evaluation obtained as result of district referral, etc.).

The LDSS will require the individual’s practitioner to complete a medical (LDSS-4526) to determine whether or not the individual can recover from a mental or physical impairment. The individual must comply with the treatment plan recommended by his/her physician. DSS may make a referral to IMA for further evaluation. Information gathered is reviewed by DSS and the Job Development staff.

The District tracks and monitors participant compliance with treatment plans on a regular basis. Job Development and TA staff monitor the exempt TANF population and schedule appointments to review their medicals, compliance with treatment recommendations, attendance, and if needed, gather further medical documentation. We endeavor to obtain monthly confirmation of attendance at rehabilitation or other factors to judge participation and progress. The District may refer individuals to IMA for further evaluations. TA and Job Development staff review the SN exempt population.
