## **Disability Advocacy Program**

Report to the Legislature

---

Program Period: January 1, 2018 to December 31, 2019

## **Preface**

The Disability Advocacy Program (DAP) was initially established by Chapter 627 of the Laws of 1983, adding Section 35 of the Social Services Law, which provides for the legal representation of individuals whose federal disability benefits have been denied or may be discontinued. Pursuant to the statutory provisions, the Commissioner of the New York State Office of Temporary and Disability Assistance (OTDA) must make grants, within the amounts appropriated, to not-for-profit legal services corporations, not-for-profit agencies serving the disabled and social services districts to provide for such representation.

As last amended by Chapter 114 of the Laws of 1997, the program was made permanent, and the OTDA Commissioner was required to submit a biennial report of DAP activities to the Chairman of the Senate Finance Committee and the Chairman of the Assembly Ways and Means Committee.

This report to the Legislature covers the January 1, 2018 - December 31, 2019 program period.

## **Executive Summary**

The Disability Advocacy Program (DAP) provides legal assistance to disabled New Yorkers who need legal help in seeking federal disability benefits under the Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) programs. Significant savings have resulted from thousands of disabled New Yorkers moving from federal, State and locally funded public assistance programs to federally funded disability programs. The DAP program provides these services to low income households at no charge to the individual. Savings accrue each year due to the avoidance of State and local public assistance costs that otherwise would have been paid for those individuals during the period they remained a part of the State's public assistance caseload. In addition, disabled New Yorkers served by the program have received retroactive federal disability payments of over \$26.5 million for 2018 and over \$29.5 million for 2019; these retroactive awards have a positive economic impact as they are spent in local economies.

DAP is a successful and cost-effective component of the State's efforts to assist its disabled residents. DAP providers were able to provide representation for 2,208 cases in 2018 and 2,544 cases in 2019. They prevailed in 73% of the cases in 2018 and 72% of the cases in 2019 in which they provided representation.

## **I. The Disability Advocacy Program: Legal Services for Disabled New Yorkers**

DAP service providers represent eligible clients at appeal stages of the Social Security disability determinations process. Clients must have incomes at or below 200% of the federal poverty level or be in receipt of public assistance in order to be eligible for representation by DAP contractors. Clients are supported through the administrative steps in the appeals process, which includes reconsideration, a hearing before an Administrative Law Judge (ALJ), and Appeals Council review. Judicial review of adverse administrative decisions is available in United States Federal District Courts, with appeals in New York going to the U.S. Court of Appeals for the Second Circuit and ultimately to the Supreme Court of the United States. DAP providers focus primarily on representing disabled clients at the ALJ hearing and onward in the appeals process. Claimants are increasingly requesting and receiving DAP services one step earlier, at the reconsideration level, now that the Social Security Administration (SSA) reintroduced it as an additional appeals level for all initial application denials beginning January 2019.

## **II. Program Administration: Statewide DAP Providers**

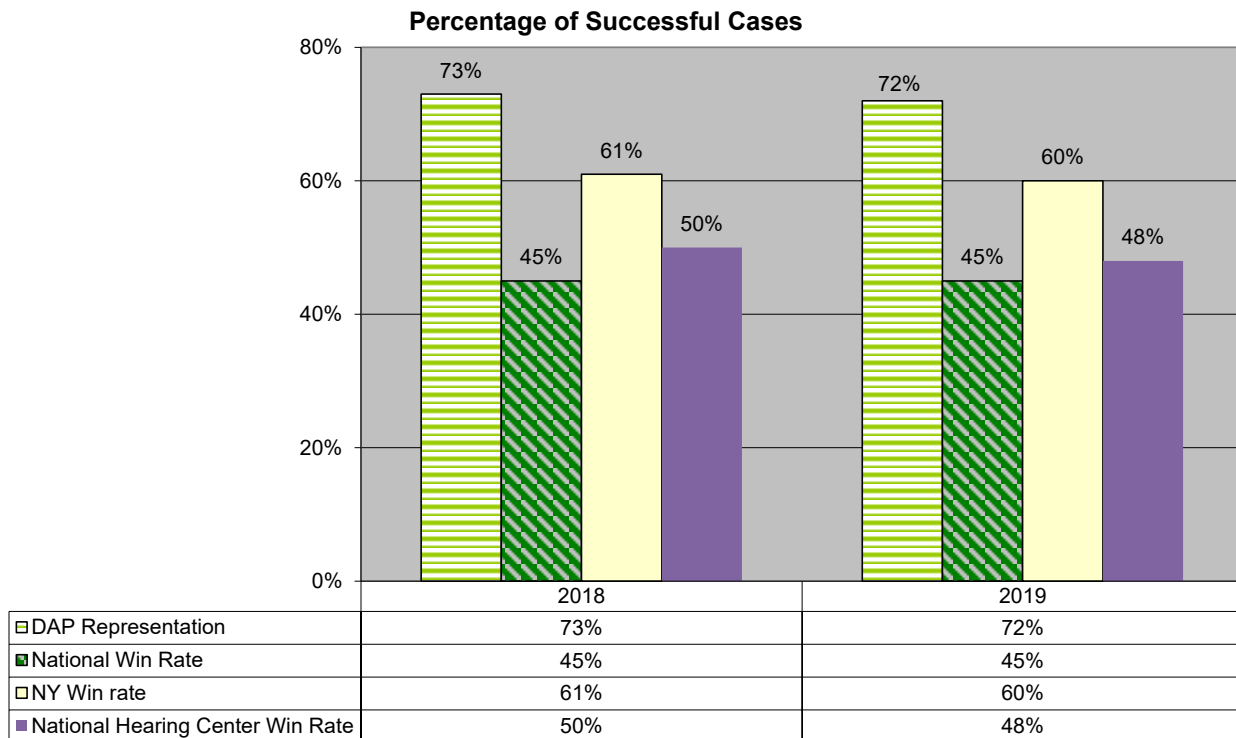

Every county of the State is served by one or more DAP providers (see Appendix A). Pursuant to a Request for Proposal (RFP) released by OTDA in March 2016, 11 contracts were awarded to provide legal services and one contract was awarded to provide administrative state support. The time period covered by this report reflects data from the seventh through the fourteenth quarters of a five-year contract agreement that started on July 1, 2016 and will expire on June 30, 2021.

## **III. Program Administration: Statewide Operations**

The OTDA Division of Employment and Income Support Programs is responsible for the administration of DAP, including issuance of the RFP, contractor selection, contract negotiations and ongoing monitoring of the program. DAP contractors are required to submit annual budgets for approval by OTDA for each year included in the contract period. DAP contractors submit vouchers for approved DAP expenditures on a quarterly basis. On a monthly basis, DAP contractors transmit case opening and closing data to the Empire Justice Center State Support Unit, which provides statewide legal support and administrative services to the program. The Empire Justice Center State Support Unit is responsible for providing comprehensive training and support to all DAP attorneys and paralegal staff and for ensuring that DAP providers are kept informed about any changes in federal law, rules or regulations that will impact access to federal disability benefits. The Empire Justice Center State Support Unit is also responsible for maintaining monthly case closing data in a computer program as required by OTDA.

#### IV. Program Statistics: Winning Cases<sup>1</sup>

As the following data from SSA illustrates, DAP providers surpass national rates for favorable outcomes at Social Security appeals. For example, in 2019 in New York, SSA denied 61% of cases at initial application. Nationally, the rate is about 63%.<sup>2</sup> Claimants receiving representation from DAP contractors were more likely to obtain benefits on appeal. Out of 2,208 cases in which representation was provided for the period January 1, 2018 – December 31, 2018, DAP providers prevailed in 1,615 cases, a 73% success rate. For the period January 1, 2019 - December 31, 2019, DAP providers won benefits in 1,835 cases, out of 2,544 where representation was provided, a 72% success rate. The breakdown of appeals and success rate for each local district is set forth in Appendix B1. In 2018, overall the success rate nationally at an ALJ hearing was 45%, with the success rate for claims heard in the New York hearing offices at 61%. In 2019, overall the success rate nationally at an ALJ hearing was 45% and the New York win rate was about 60%. Claimants in New York are also often assigned to appear by video before an ALJ at one of SSA’s National Hearing Centers, where the success rate was 50% in 2018 and 48% in 2019.

<sup>1</sup> DAP contractors are required to achieve a minimum of 65% successful outcomes. DAP contractors are also required to ensure that 30% of the population served are Safety Net Assistance recipients and required to achieve a minimum of 50% successful outcomes with this population. The 2018 Safety Net Assistance win rate for DAP contractors statewide was 73%. The 2019 Safety Net win rate remained 73%.

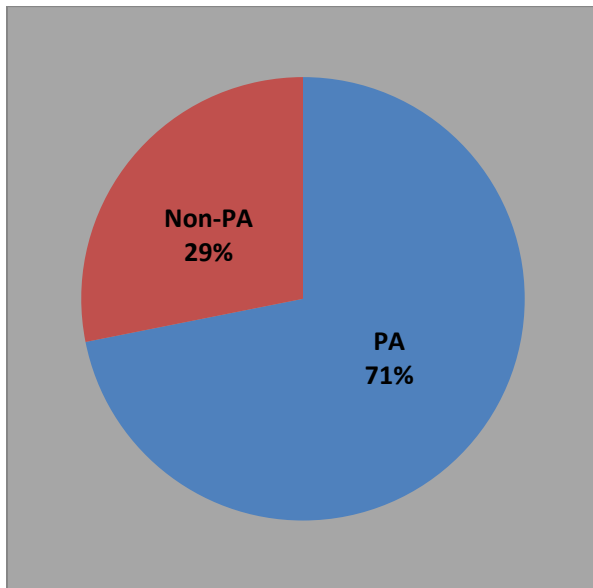

<sup>2</sup> The last Report to the Legislature for DAP noted that approximately 20% of denied claims went on to appeal, with a hearing before an Administrative Law Judge. Because of the reintroduction of the reconsideration process, there is insufficient data to update that statistic in this Report.

## V. Program Statistics: Savings to the State and Localities

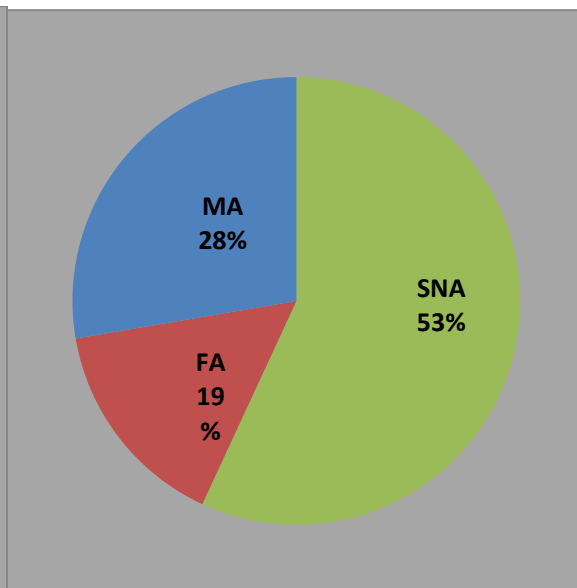

DAP saves New York State and its 58 social services districts millions of dollars. The savings come about both through the recovery of public assistance dollars expended and through avoiding future public assistance costs. Close to 3,300 or almost 71% of the total clients served from January 1, 2018 - December 31, 2018 were receiving some public assistance benefit. Of those receiving benefits, 53% received Safety Net Assistance (SNA) benefits, 19% Family Assistance (FA) benefits and 28% Medical Assistance (MA) only.

For January 1, 2019 - December 31, 2019, more than 3,500, or approximately 72% of the DAP clients served received public assistance benefits. Of those receiving benefits, 53% received SNA benefits, 18% received FA benefits, and 29% received MA only.

**2019 Public Assistance Breakdown**

For the January 1, 2018 through December 31, 2018 time period, DAP was funded at an annual level of \$8.26 million (\$4.13 million State/\$4.13 million local).<sup>3</sup> DAP continues to be an extremely positive investment for the State. For the period January – December 2018, close to \$7.2 million in Interim Assistance was recovered. In addition, during 2018, DAP providers secured over \$26.5 million in retroactive benefits paid to successful claimants who in turn are more financially secure and able to boost the economy as they spend these federal dollars in their local communities, paying rent and buying basic necessities. As a further benefit to the State, the DAP program activity in 2018 resulted in an estimated \$6.1 million public assistance cost avoidance<sup>4</sup> realized by moving individuals from federal/State/locally funded public assistance to more appropriate federal disability assistance.

For the period January-December 2019, DAP providers secured approximately \$6.7 million in Interim Assistance recovered. Over \$29.5 million in retroactive benefits was paid to successful claimants, infusing new and on-going federal funds into New York’s economy. DAP program

activity in 2019 also generated \$7.0 million in public assistance cost avoidance by moving individuals from federal/State/locally funded public assistance to more appropriate federal disability assistance.

**Impact of DAP 2018 – In Millions of Dollars**

<sup>5</sup> DAP contractors provide direct assistance or representation to individual clients, which includes advice and counsel, brief service, information, referral to another entity where appropriate, representation before the Social Security Administration or federal courts, and any other form of direct assistance to an individual disabled person. In addition to providing assistance in connection with a formal “case” opened by a DAP contractor, DAP contractors may provide “brief services” by assisting with disability related legal problem such as issues of overpayments, calculations or benefits, SSA procedures, case investigation, and applications for or denials of benefits.

### Impact of DAP 2019 – In Millions of Dollars

In addition to success in moving public assistance recipients to SSI and SSD, in 2018, DAP providers also won benefits in 376 non-public assistance and Medical Assistance cases. In 2019, they won 427 awards in these cases, providing these individuals a vital stable source of federal income and avoidance of future reliance on New York’s public assistance programs.

### VI. The Continuing Need for Legal Representation

The services provided under the Disability Advocacy Program continue to be critical to low-income disabled New Yorkers. At the end of 2019, the number of claimants applying for benefits was increasing, and SSA’s procedures and rules for determining disability continued to evolve, with increasingly stringent rules and regulations. DAP services will remain vital to helping low-income individuals access federal disability benefits.

### VII. Core Representation Services

In 2019 the Disability Advocacy Program successfully handled over 2,500 appeals and saved New York State an estimated \$7 million in public assistance cost avoidance based on successful appeals.<sup>6</sup> These appeals include representation by DAP advocates at the reconsideration and ALJ hearing levels as well as the SSA Appeals Council and U.S. District Court. The State Support Unit of the Empire Justice Center assists those advocates who do not practice in federal court with appeals or have more limited experience, so that all claimants have access to the full panoply of appeal rights.

---

<sup>6</sup> This estimate assumes two years of public assistance cost avoidance.

As noted above, claimants historically have fared better when represented, especially by DAP providers.<sup>7</sup> With the growing complexity of the appeals process and disability standards, high quality representation will be even more crucial. Thus, the DAP program anticipates similar numbers and savings during the program year 2020 and beyond.

### **VIII. Continuation of the Disability Advocacy Program**

There is a continuing and pressing need to provide legal representation to persons whose federal disability benefits may be denied or discontinued. In light of the significant and far-reaching changes in the disability claims process at every step of administrative review, disabled New Yorkers will need the services of trained; experienced DAP advocates to assist them in navigating SSA's new procedures and reaching a favorable outcome.

DAP has demonstrated its ability to successfully establish eligibility for federal benefits, secure on-going federal assistance to those they serve, and to achieve a significantly higher success rate than the national average.

---

<sup>7</sup>According to data from SSA cited in the 2006-2007 Report to the Legislature, in 2006, the national win rate with representation at the ALJ hearing level was 68.7%; without representation the win rate was 39.3%. The DAP win rate for this period was 78.5%. Similar data for later years is no longer available from SSA. However, data in this Report indicates that the overall win rate nationally at the ALJ level dropped to 45% in 2019, with the NY ALJ win rate at about 60%. DAP advocates prevailed in 72% of their cases during this period.
